The Courier Journal yesterday admitted that Mr. Cleveland was the leading and conspicuous figure in the contest, with a majority of the delegates in favor of his nomination. The opposition, numbering perhaps a third, is so broken and headless as to be utterly helpless to accomplish any definite result. The politicians declare they will defeat the expresident and if they do God pity them; the people will show them no mercy.

THE republicans profess to believe that a tearing away of some of the canvass covering of the democratic wigwam at Chicago by a cyclone, is an ill omen, but their man was nominated on Friday and Friday is the most unlucky of days, if there is anything in superstition. For a long time the New York Trib. une has been what is termed in the printers' union parlance a "rat office," that is to say the union rules and regulations were disregarded and printers were hired at any rate they could be gotten at. But so soon as Whitelaw Reid is nominated for vice-president, he hastens to make terms with the union and thus to placate the labor organizations. It will hardly work, however. This class of labor is too intelligent to have the wool pulled over its eyes by any such thinly disguised policy movement.

Stanford, Ky. I have quite a number of FARMS for sale of the very best B ne-Grass Lands in Lincoln county. These Farms are all well improved and good rich lands, running in size from 50 to 500 Acres. Considering theis locality, their richness and fertility of soil, the convenience of turnpikes and rail-roads that bring markets right to our door, they are cheaper than the Lands of any other county in

are cheaper than the Lands of any other county, in the State. There is scarcely a Farm in the county over 5 miles from a decot:

The county is checked with turnpikes running inevery direction. There is not a public road entering the county seat that is not Macadamized. We have the Knoxville Brauch of the L. & N. R. R. dividing the county from East to West and the C. S. R. R. from North to South; the K. C. R. R. from this place to Cincinnati, crossing the C. & O. at Winchester, giving full access to the markets of the whole world. Besides, we have three large Plour Mills in the county that give us a market for all our grain right at home; and the development of the mountain regions of Eastern and South-eastern Kentucky by railroads and the outlet Sonth by railroads has created such a demand for all kinds of cereals and provender that wecan scarcely retain enough tor home consumption. scarcely retain enough for home consumption

The people are prosperous, generous and kind, believing in Christianity and education. There is not a neighborhood in the county but has a good church and school-house. Stanford, the county seat of Lincoln, is a pros-Stanford, the county seat of Lincoln, is a prosperous little city of about 2,500 inhab.tants and is the great doorway from the North and Northeast South and from the Northwest to Southeast, and standing as it does gazing right into the bosom of the undeveloped mountains of Southeastern Kentucky backed up by the whole Blue-Grass region of the State with railroads running through it to all points of the compass, makes it naturally one of the best located towns in the South for mannfactures and other enterprises of magnitude.

it to all points of the compass, makes it naturally one of the best located towns in the South for mannfactures and other enterprises of magnitude. Water Works are now being agitated and fight aboue the town about; three-fourths of a mile there could be erected Water Works with very little cost that would supply a city of 130,000 inhabitants with the purest and best water in the world. Our little city has been newly rebuilt in the last few years and its business houses ard residences will compare with larger cities of greater pretensions. Our merchants and tradesmen are all prosperous and doing well. We have two banks with a capital stock of \$400,000 that are prosperous and in a good condition.

We have spleadid schools. We have a Female College, a large brick building, with over 100 pupils in attendance and under the principalship of Prof. J. M. Hubbard, is in a flourishing condition. We also have a Seminary that is a good school, with Prof. B. F. Blakeman at its head. We have one of the best Public School buildings in this section of the State, with over 100 puptls in attendance, and with other good private schools, you see our school facilities are excellent.

We have elegant church buildings, representing every denomination, with a full corps of ministers of fias -class talent and are doing a better business than any class of men in the city.

I have tried to make this statement as facts, without any exaggeration or coloring, as those who know will bear ne out, and those who wish to buy pleasant homes at fair prices and locate among a good people with all the best surroundings, would do well to call and see me before purhasing elsewhere
